

BioFilm Detox

Biofilm Detox is an enzyme-based formula designed to assist in the breaking down of pathogenic biofilms that may contribute to dysbiosis in the terrain. Ideally, take Bio-Film Detox 20 minutes before the appropriate Bio-Tox or anti-fungal homeopathic formula. Due to its enzyme content it also provides general digestive benefits.

Biofilm Defense

- **Glucoamylase:** Breaks down complex sugars/starches in the biofilm's carbohydrate matrix.
- **Alpha Galactosidase:** Targets specific plant-like sugars that can form part of biofilm polysaccharides.
- **Bromelain:** Protease that digests proteins and fibrin in the biofilm; also reduces inflammation.
- **Cellulase:** Breaks down fiber-like glucose chains that strengthen biofilm structure.
- **Beta Glucanase:** Degrades β -glucans, key structural components in fungal/yeast biofilms (e.g., Candida).
- **Fungal Amylase:** Further digests starches and polysaccharides in the matrix.
- **Fungal Protease II:** Breaks down proteins within the biofilm and microbial adhesion proteins.
- **Peptidase:** Splits smaller peptide bonds, complementing protease activity for deeper protein breakdown.
- This enzyme blend works by breaking down both sugars and proteins in biofilm structures — carbohydrases target the sticky sugar matrix, while proteases dissolve the protein scaffolding. Together, they weaken biofilms and expose hidden microbes, making them easier for the body to clear.

Supports Efficient Digestion

- Breaks down carbohydrates, proteins, and fibers, enhancing the body's ability to process food.

Reduces Gas & Bloating

- Optimizes the breakdown of complex foods, minimizing post-meal discomfort.

Maximizes Nutrient Bioavailability

- Facilitates the absorption of vitamins, minerals, and other nutrients for optimal metabolic support.

Boosts Energy & Vitality

- Converts food into usable energy more efficiently, supporting sustained stamina throughout the day.

Supports Gut Microbiome Balance

- Enhances fiber and complex carbohydrate breakdown, promoting a healthy digestive environment.

Promotes Comfort After Meals

- Helps reduce heaviness, leaving you feeling lighter and more satisfied.

Enhances Protein Utilization

- Supports amino acid release and assimilation, benefiting muscle function and recovery.

Optimizes Enzymatic Efficiency

- Works synergistically to improve overall digestive performance and metabolic processing.

Supports Metabolic Flexibility

- Encourages efficient energy conversion from diverse food sources.

Cellular Support & Detoxification

- Facilitates the breakdown of compounds that can otherwise create oxidative load, supporting overall cellular function.

Supplement Facts

Serving Size : 3 capsules
Serving per container: 30

Proprietary Enzyme Blend

Glucoamylase, Alpha Galactosidase, Bromelain, Cellulase, Beta Glucanase, Fungal Amylase, Fungal Protease II, Peptidase.

Hypoallergens

- Contains no artificial color, flavor, or preservatives. Gluten-free & non-GMO.

Dosage

- 1 capsule, 3 times per day between meals.

WARNINGS:

If pregnant or breastfeeding, it is recommended to ask a healthcare professional before use. Keep this remedy out of reach of children. In case of overdose, seek medical help or contact a Poison Control Center immediately. Do not use if the tamper-evident seal is broken or missing.
