

BioTox P (Pertussinum)

BioTox P (Pertussinum) is designed as a homeopathic remedy aimed at providing relief from the symptoms of whooping cough (pertussis) and other spasmodic coughs. Leveraging the homeopathic methodology, which utilizes substances in highly diluted forms, this remedy seeks to stimulate the body's natural healing mechanisms.

Supports relief from spasmodic and persistent cough patterns

- **Pertussinum** helps address the intense, repetitive, and spasmodic nature of coughs associated with pertussis and similar conditions, supporting calmer respiratory function and improved comfort.

Targets both acute and chronic immune patterns

- The **graduated potencies (15C, 30C, 60C, 200C)** allow the remedy to work across multiple layers of imbalance, supporting immediate symptom relief while also addressing long-standing or recurring tendencies.

Stimulates the body's natural healing response

- Through highly diluted homeopathic potencies, BioTox P encourages the body's self-regulation rather than suppressing symptoms, supporting a more complete and balanced recovery process.

Supports immune system education and adaptability

- **Pertussinum** helps guide the immune system toward a more appropriate and balanced response, supporting long-term immune resilience rather than immune overreaction or exhaustion.

Promotes respiratory balance and airway comfort

- The formula supports smoother breathing patterns and reduced airway irritation, helping restore functional balance within the lungs and bronchial pathways.

Helps calm nervous system overactivation associated with spasmodic conditions

- By addressing spasmodic patterns at an energetic level, BioTox P supports nervous system regulation, helping reduce tension, irritability, and reactivity often linked to persistent coughing.

Supports recovery from immune exhaustion and post-illness fatigue

- The remedy helps replenish the body following prolonged immune stress, supporting vitality, strength, and overall system recovery.

Promotes systemic balance during inflammatory stress

- BioTox P supports the body's ability to modulate inflammatory responses, helping maintain overall comfort and equilibrium during immune or environmental challenges.

Ingredients:

The formula contains Pertussinum in the potencies of 15C, 30C, 60C, and 200C.

Recommended Dosage

General guideline: take 5 drops twice daily, adjusting frequency from one to five days a week based on symptoms and healthcare provider advice.

Acute cases: the recommendation is to take 3 drops every hour for three consecutive hours.

Additional Information:

BioTox P (Pertussinum) offers a homeopathic alternative for individuals dealing with whooping cough and spasmodic coughs. Before beginning any new health supplement, consulting with a healthcare provider is crucial, especially for those who are pregnant, nursing, have existing health conditions, or are on other medications.

WARNINGS:

- Do not use if the tamper-evident seal is broken or missing.
- Keep out of reach of children.
- Do not use if pregnant or nursing unless directed by a healthcare professional.
- In case of overdose, contact a physician or a Poison Control Center right away.
