

BIOTOX TOTAL LYME™

COMPREHENSIVE ENERGETIC SUPPORT FOR TICK-ASSOCIATED STRESS, MICROBIAL BALANCE, DETOXIFICATION & SYSTEMIC RESILIENCE

OVERVIEW

Biotox Total Lyme™ is an advanced bioenergetic formula developed to support the body's natural ability to maintain balance when challenged by complex microbial, neurological, immune, and environmental stressors commonly associated with tick exposure.

This proprietary frequency blend incorporates multiple energetic signatures selected to support microbial balance, neurological function, immune resilience, detoxification and drainage pathways, connective tissue, circulation, cellular recovery, and the lymphatic system.

Rather than focusing on a single organism or body system, Biotox Total Lyme™ utilizes a multi-layered approach designed to support the body's overall terrain and natural adaptive capacity.

PROPRIETARY FREQUENCY MATRIX

Biotox Total Lyme™ contains a proprietary combination of energetic signatures selected from the following categories:

Lyme-Associated Microbial Support

Energetic signatures associated with microbial patterns commonly considered in comprehensive Lyme-focused wellness protocols.

The proprietary matrix provides broad-spectrum energetic coverage without relying on a single microbial target.

Coinfection & Microbial Balance Support

Includes energetic signatures selected to provide broader support for microbial patterns practitioners may consider following tick exposure.

This expanded approach recognizes that complex tick-associated stress may involve more than one biological pattern.

Alpha-Gal Syndrome Support

The formula incorporates energetic signatures selected with Alpha-gal Syndrome (AGS) and the body's response to tick-associated alpha-gal exposure in mind.

Alpha-gal syndrome is a potentially serious allergy to the alpha-gal sugar molecule that can develop following certain tick bites. This portion of the energetic matrix is intended to support overall energetic balance and normal regulatory function in individuals dealing with tick-associated environmental and dietary sensitivities.

Biotox Total Lyme™ is not a treatment for Alpha-gal Syndrome, and individuals diagnosed with or suspected of having AGS should continue appropriate allergen avoidance and medical care.

Neurological & Cognitive Support

Energetic signatures selected to support healthy neurological communication and nervous-system balance.

Focus areas include:

Mental clarity and focus

Neurological communication

Nervous-system resilience

Healthy stress response

Brain and neurological recovery

Glymphatic System & Brain Drainage Support

An important component of the formula focuses on energetic support for the lymphatic system, the brain's specialized waste-clearance pathway.

The glymphatic system helps move fluid through brain tissue and participates in the clearance of metabolic waste. Supporting healthy sleep, neurological balance, and normal glymphatic function is an important part of the formula's overall brain and recovery strategy.

Joint, Muscle & Connective Tissue Support

Supports energetic balance within systems involved in mobility and physical recovery.

Focus areas include:

Joints

Muscles

Fascia

Connective tissue

Mobility and recovery

Immune Communication Support

Designed to support energetic coherence within the body's natural defense and adaptive response systems.

Supports healthy communication between immune, neurological, and regulatory systems.

Detoxification & Drainage Support

Energetic support for the body's primary pathways of processing and elimination, including:

Liver

Kidneys

Lymphatic system

Glymphatic system

Colon

Cellular waste pathways

Circulatory & Lymphatic Support

Energetic signatures selected to support healthy circulation, lymphatic movement, tissue drainage, and normal nutrient delivery throughout the body.

Cellular Energy & Mitochondrial Support

Supports energetic patterns associated with cellular energy production, recovery, endurance, and overall vitality.

Systemic Recovery & Resilience

Designed to support the body's ability to adapt and recover when multiple systems are experiencing increased stress simultaneously.

Practitioner Note

The specific frequencies and energetic signatures contained within Biotox Total Lyme™ are proprietary and represent years of clinical development and refinement.

The formulation was developed as a comprehensive energetic matrix rather than a single-target approach. It is designed to support multiple systems involved in tick-associated wellness concerns, microbial balance, neurological and lymphatic function, immune resilience, detoxification, physical recovery, and overall systemic balance while preserving the proprietary nature of the underlying frequency blend.
