

Hair Stim

Hair-Stim is a homeopathic remedy formulated to rejuvenate hair growth. This oral formula contains a unique blend of homeopathic ingredients aimed at revitalizing and stimulating hair follicles. Designed for individuals experiencing hair thinning or loss, Hair-Stim follows homeopathic principles, promoting natural hair growth without causing harsh side effects.

Supports healthy hair growth and follicle stimulation

- **Thyroidinum (Suis), Baryta Carbonica, and Calcarea Carbonica** work together to support metabolic and hormonal balance, helping nourish hair follicles and encourage healthier, more consistent hair growth.

Helps strengthen hair strands and improve hair texture

- **Silicea, Phosphorus, and Sulphur** support connective tissue strength and mineral assimilation, contributing to stronger, more resilient hair with improved texture and vitality.

Promotes scalp balance and a healthy follicular environment

- **Sulphur, Natrum Muriaticum, and Mercurius Solubilis** help address scalp imbalances such as dryness, irritation, or congestion, creating optimal conditions for hair growth.

Addresses hormonal and endocrine-related hair concerns

- **Thyroidinum (Suis), Bromium, and Sulphur Iodatum** support endocrine regulation, helping manage hair thinning associated with hormonal fluctuations or sluggish glandular function.

Supports circulation and nutrient delivery to the scalp

- **Vinca Minor and Hydrofluoricum Acidum** help promote healthy circulation and tissue nourishment, supporting oxygen and nutrient flow to hair follicles.

Helps reduce hair shedding and support regrowth cycles

- **Sepia, Pulsatilla, and Mezereum** are traditionally used to support hair retention and regrowth by addressing stress-related, hormonal, and systemic contributors to hair loss.

Supports detoxification and cellular balance at the scalp level

- **Pediculus Capitis and Mercurius Solubilis** work to help clear stagnation and support healthy cellular turnover, contributing to a cleaner, more balanced scalp environment.
