

Nano Ionic Selenium

Dr. Dale's Nano Ionic Selenium is a highly bioavailable, water-soluble source of selenium designed for optimal absorption and cellular utilization. Selenium is an essential trace mineral that plays a critical role as a catalyst in key enzymatic processes—particularly in the liver, thyroid, and immune system.

Using advanced nano ionic technology, this formula delivers selenium in a form that can be rapidly absorbed and utilized by the body, helping support detoxification, hormonal balance, and overall cellular protection.

Supports liver detoxification and blood cleansing

- Selenium activates the enzyme glutathione peroxidase, which plays a key role in helping the liver neutralize toxins and cleanse the blood efficiently.

Promotes powerful antioxidant protection

- Through its role in glutathione activity, selenium helps protect cells from oxidative stress and free radical damage.

Supports healthy thyroid function and hormone activation

- Selenium works alongside iodine to convert T4 into active T3 thyroid hormone, helping maintain proper metabolism, energy, and hormonal balance.

Strengthens immune system function

- Selenium supports immune cell activity and helps the body defend against oxidative and environmental stressors.

Supports breast and prostate tissue health

- Selenium is naturally concentrated in healthy breast and prostate tissues, supporting cellular protection and long-term tissue health.

Promotes metabolic and endocrine balance

- By supporting thyroid and enzyme activity, selenium contributes to overall metabolic efficiency and hormonal stability.

Supports detox pathways and overall cellular health

- Selenium plays a key role in enzymatic reactions that help the body process and eliminate toxins effectively.

Highly bioavailable for optimal absorption

- The nano ionic, water-soluble form allows selenium to be quickly absorbed and utilized at the cellular level.

Supports cardiovascular health and circulation

- Selenium's antioxidant role helps protect blood vessels from oxidative damage, supporting healthy circulation and overall heart function.

Supplement Facts

Serving Size : 1ml or 25 drops

Servings per container: 60

	Amount Per Serving	%DV*
Selenium	250mcg	125%

*Daily Values not established
Percent daily values based on 2000 diet

Ingredients: Purified water, Selenium Nitrate (250PPM Elemental Selenium)

Recommended Dosage

Adults: take 1ml or 25 drops daily in water.

Children: 5 drops daily in water.

Please consult a healthcare professional for precise dosage.

WARNINGS:

- Do not use if the tamper-evident seal is broken or missing.
- Keep this and all medication out of the reach of children.
- Do not use if pregnant or nursing unless directed by a physician or healthcare professional.
- Store in a cool, dry place.
