

OrthoPhos

Ortho Phos is a targeted liquid formula designed to support the body during gallbladder and liver cleansing protocols. Commonly used as part of a Gallbladder Flush protocol, it helps prepare the liver, promote bile flow, and assist in softening gallstones or bile sludge.

This formula combines key nutrients in a highly absorbable liquid form to support detoxification and optimal digestive function.

Supports softening of gallstones and bile sludge

- **Phosphorus (from orthophosphoric acid)** helps break down and soften hardened bile deposits, making them easier to eliminate during cleansing protocols.

Promotes healthy bile flow and gallbladder function

- **Phosphorus + Inositol** support proper bile consistency and flow, aiding digestion of fats and reducing bile stagnation.

Prepares the liver for detoxification protocols

- **Phosphorus + Riboflavin** helps optimize liver function and enzyme activity, preparing the body for effective cleansing.

Supports liver drainage and detox pathways

- **Phosphorus (orthophosphoric acid)** encourages proper drainage of bile and toxins through the liver and gallbladder.

Enhances fat metabolism and digestion

- **Inositol 21 mg + Riboflavin** supports fat breakdown and metabolic processes linked to bile production and liver health.

Supports cellular energy during detoxification

- **Riboflavin** plays a key role in energy production and enzyme activation, helping the body manage detox demands.

Ingredients:

- Riboflavin 100mcg
- Phosphorus (from orthophosphoric acid) 395mg
- Inositol 21mg

Other ingredients:

- Purified water.

Indications:

Intended for use with our Gallbladder Flush protocol. Ortho Phos may assist in softening gallstones or bile sludge. It also assists in preparing the liver and supporting drainage. Only recommended for short use.

WARNINGS:

- Do not use if tamper-evident seal is broken or missing.
- Keep out of reach of children.
- Do not use if pregnant or nursing unless directed by a healthcare professional.
- To be used according to standard homeopathic indications.
