

Thyroid Glandular

Our natural Thyroid Glandular is sourced from pasture-raised, grass-fed cows that have never been treated with antibiotics or hormones. This high-quality desiccated thyroid supplement is designed to support thyroid function, healthy TSH levels, and overall metabolic balance. It is best used as part of Dr. Dale's Thyroid Protocol to optimize thyroid health and systemic wellness.

Supports healthy thyroid function

- Provides natural thyroid tissue to help maintain normal thyroid hormone levels and overall endocrine health.
- Supports T3 and T4 hormone balance, promoting efficient metabolism and energy production.
- By supporting T3 and T4 production, it helps maintain balance across other hormones regulated by the thyroid, including adrenal and reproductive hormones.
- Proper thyroid function helps regulate lipid metabolism, which may aid in maintaining healthy cholesterol levels.

Promotes balanced TSH levels

- Works with the pituitary-thyroid axis to help maintain optimal thyroid-stimulating hormone levels.

Supports overall energy and vitality

- Helps reduce fatigue associated with low thyroid function, supporting daily energy, focus, and well-being.

Synergistic with Dr. Dale Thyroid Protocol

- When combined with our full thyroid protocol, it enhances results in maintaining healthy thyroid function and metabolism.

Supplement Facts

	Amount Per Serving	%DV*
Desiccated bovine thyroid gland	300 mg	*

*Daily Values not established
