

VisioCell

For any vision issues—can help patients with cataracts, astigmatism, retinitis, macular degeneration & Glaucoma. Floaters are caused by heavy mercury in the body—take Mercury+Detox with Visiocell to take care of floaters.

- Astigmatism is correctable. As you read the ingredients, you can see that this ingredient is in there along with cataracts, etc. The origin of the ingredients for correcting vision is from bovine. When we use an animal mother tincture, the source is from the 1950s, when there was no mad-cows disease.. Similar to a glandular, only with no toxicity and no side effects, energy medicine provides the correct information to get the body to repair itself and remind it how to do that function.
